In 2027 SAP will discontinue mainstream maintenance for SAP Business Suite 7, requiring customers to migrate to SAP S/4 HANA, which only runs on SAP HANA.

**WHY SUSE?**

- **SUSE is a preferred partner for SAP HANA**, a collaboration that's lasted for nearly 20 years.
- **SUSE has over 30,000 worldwide SAP customers**.
- **For 15 years, SUSE has been migrating customers to SAP**.
- **With SUSE, deploy SAP HANA in hours instead of days**.
- **Minimize downtime with SAP-optimized HA, disaster recovery and data security solutions from SUSE**.
- **Easily migrate and deploy SAP HANA in the cloud and on-premise**.
- **SUSE boasts many SAP HANA Innovation Awards over the years**.

**THE PERKS**

- **Get seamless 24x7 priority support from both SUSE and SAP training**.
- **Numerous reference architectures that suit a wide range of hardware vendors**.
- **Minimize downtime with SAP-optimized HA, disaster recovery and data security solutions from SUSE**.
- **Easily migrate and deploy SAP HANA in the cloud and on-premise**.

**THE FACTS**

- **90% of SAP HANA customers run SUSE Linux Enterprise**.
- **70% of SAP applications that use Linux, run on SUSE**.
- **90% of SAP HANA customers run SUSE Linux Enterprise**.
- **SUSE was the first to run SAP HANA on IBM Power Systems**.
- **SUSE runs SUSE in-house**.
- **SUSE has over 30,000 worldwide SAP customers**.

**THE EXPIRY**

- **The SUSE® Path to Business-critical ERP systems face danger of disruption**.
- **SAP HANA was developed from the ground up using SUSE Linux Enterprise**.
- **SAP runs SUSE in-house**.

**THE RISKS**

- **Moving to a new database and OS could harm your data**.
- **Migration is risky, time-consuming, and expensive**.
- **Business-critical ERP systems face danger of disruption**.
- **SAP on Windows users lack in-house skills and tools to migrate to SAP HANA**.

**THE TIME REMAINING**

- **2000**
- **2010**
- **TODAY**
- **2027**

**TESTIMONIAL**

"Going with SAP HANA on SUSE mitigates our risk and gives us the best and most optimal platform to run our SAP enterprise applications."

— Ranjit Prithviraj
