

Drive Your IT Transformation with SUSE Global Services

WHAT'S STOPPING YOUR IT TRANSFORMATION?

1. IT transformation is difficult

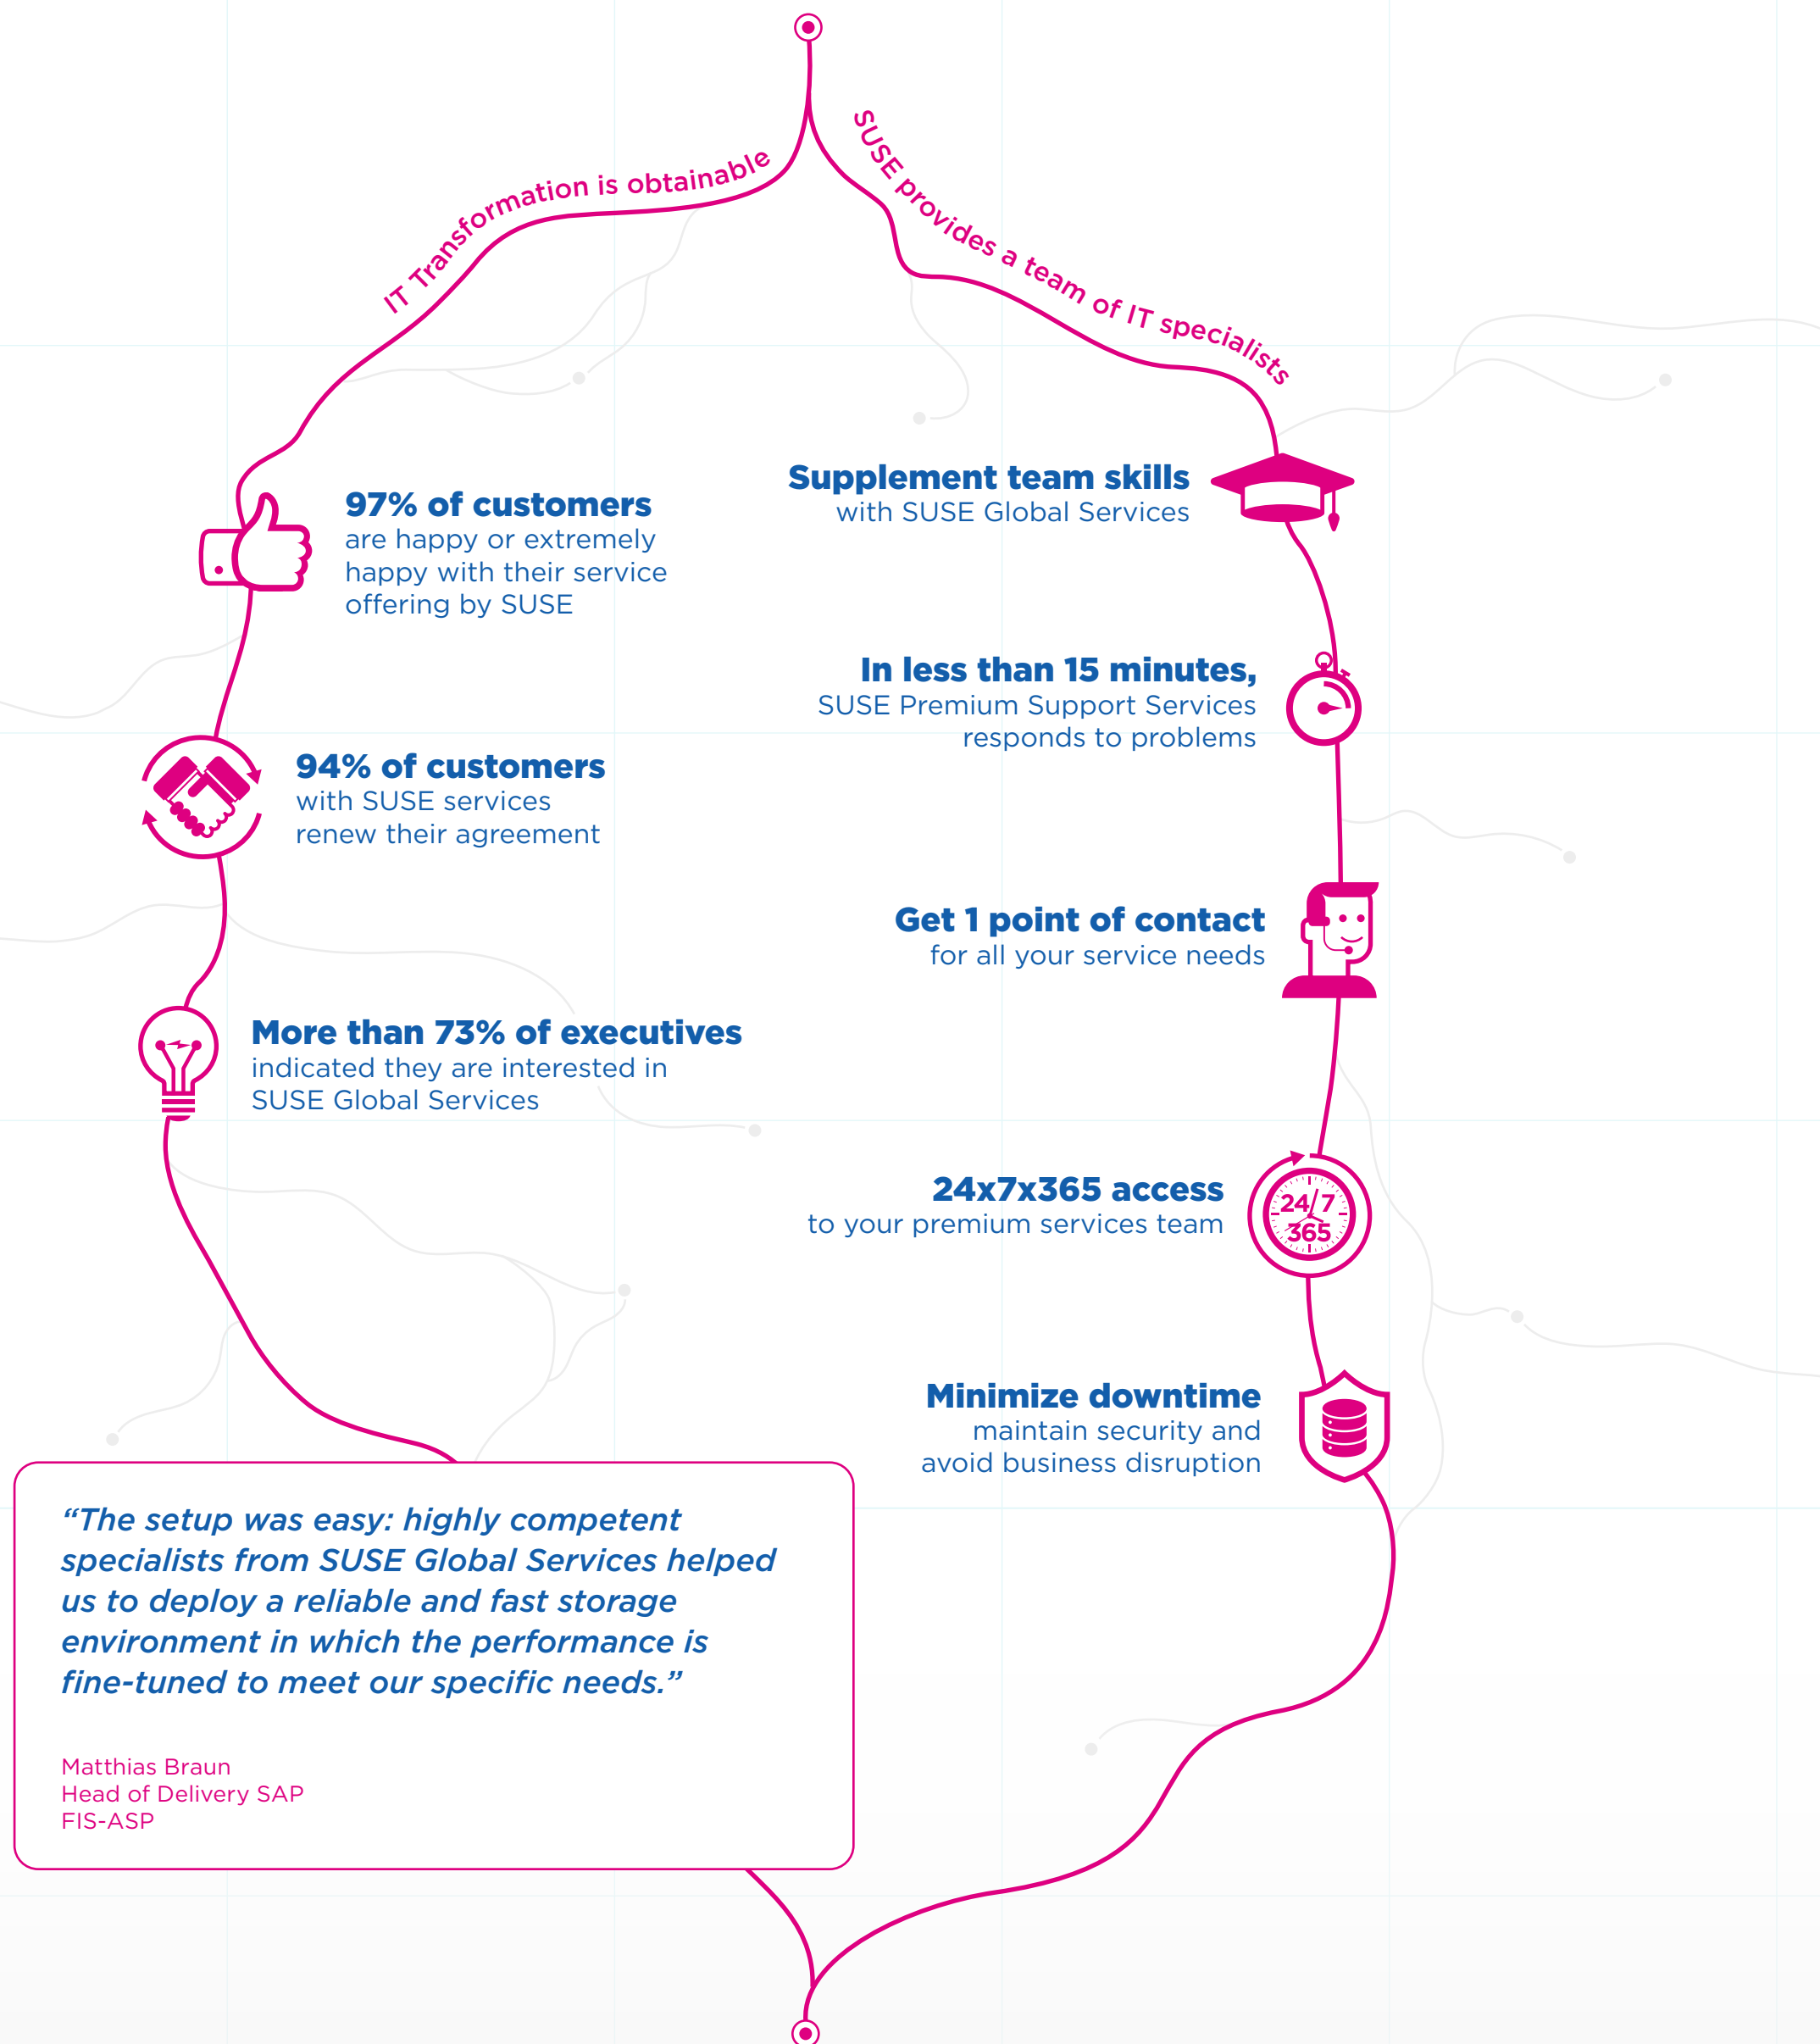

- 80%** of companies are **at risk of collapse** if they fail to achieve digital transformation
- 54%** of companies say a **successful digital transformation** is just four years away
- 73%** of employees fear that **they could be fired** if new projects don't deliver intended benefits
- 65%** of enterprises **don't have the time or money** to change their team structure, so will stay siloed

2. IT resources are few and expensive

- 84%** of companies say they **have an issue** with employee skills gaps
- 1.3m** By 2026, there will be **1.3 million IT jobs**, but only **60,000** students graduate in computer science each year
- \$4.1k** The average hiring cost is more than **\$4,100** and takes **42 days** to onboard
- \$50k** The cost of a bad hire exceeds **\$50,000** on average

The road to IT transformation can be bumpy, but it doesn't have to be with SUSE Global Services.
