

SUSE CaaS Platform: Day 2 – Where Do We Go From Here?

TUT1076

Rob Knight
rob.knight@suse.com
@rssfed23

Peter Andersson
peter.andersson@suse.com

Agenda

1 – Update Process

2 – LDAP & Private Registry Mirror

3 – Prometheus + Grafana Setup

4 – Q&A

kubernetes

OPEN CONTAINER
INITIATIVE

SUSE

We adapt. You succeed.

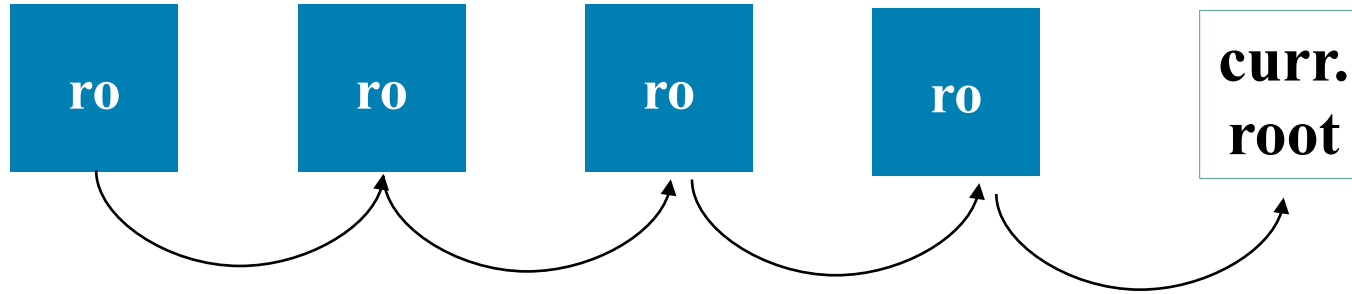

Why?

Change is Hard

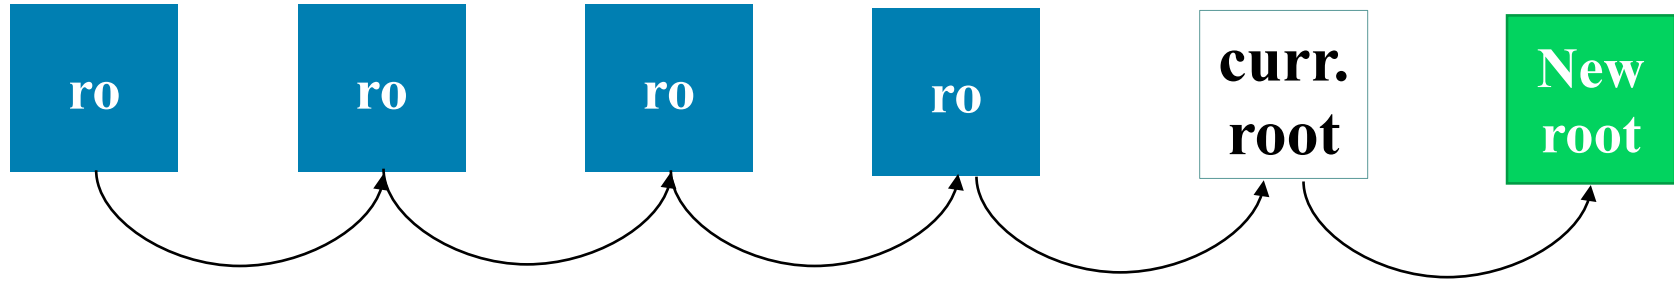

- **Progressing beyond the Playground**
- **Different platforms require different tooling**
- **New ways to deploy, new ways to configure**
- **Deploying a platform is one thing, but getting value out of it is different story**

Update Process

User View - Abstract

User View - Abstract

- ro-Clone 1
- Change rw 2
- zypper up 3
- Change ro 4
- “Rollback” 5 btrfs subvol set-default

LDAP, Private Registry and Monitoring

Q&A

We adapt. You succeed.
